

## Homework #2 assignments

Solve the assigned problem and prepare a 15-minute presentation to the class. Your presentation should cover any required background theory other than what was covered in class, your solution procedure, and should discuss the implications/conclusions of the problem.

**NOTE:** If you want to use my computer for your presentation you can use either PDF or open office format.

3.13 Tom Hall

3.12 Charles Bernson

3.3 Alan Huynh

3.8 David Park (important to explain transformer optimization)

3.9 Ryan Jackson

3.2 Vinny Ravindran
