Dr. Hector Erives:

The enclosed document contains an overview of the work to be done for you regarding the development of an active optics-based image stabilization method for a hyperspectral instrument. This report will detail the purpose of the project, why it is important, and will briefly touch on the background of the subject matter. In addition, a list of the deliverables and a timeline of the work to be done are provided.

The team is pleased to inform you that the plan for work on the project is in full swing. The team has already started researching the subject matter and is formulating a conceptual design for the problem.

Sincerely,

Joseph Fernandez
Team Leader
Statement of Work:
Active Optics-Based Image Stabilization for a Hyperspectral Instrument

24 October 2007
Senior Design
Dr. Teare

Senior Design Team #3
Roque Burleson
Joseph Fernandez
Vincent Urias
Julie Walter

Faculty Advisor: Dr. Rene Arechiga
Project Sponsor: Dr. Hector Erives
The work presented in this report was conducted by the following members of the team.

24 October 2007
